

This activity can be used to enhance phonic skills.

The teacher writes a blend on the board and draws a cloud around it e.g. ai, ee ,sh, ch, pl etc.

The children then take it in turns to write a word on the board that has that sound.

My class love doing this activity on an individual basis with a set time limit. They also like to challenge me in finding the most words - They usually win!

# Finding words with the 'ai' sound
