91	92	93	94	95	96	97	98	99	100

There are 100 squares in this grid. We will look at percentages (%) which are always out of 100.

When we say 50% we mean 50 out of 100 or $50/100$, just as 23% is 23 out of 100 or $23/100$.

Colour the following number of square:

6% red = ___ squares

9% yellow =

10% blue = ___ squares

3% navy =

25% green = ___ squares

17.5% pink =

1% black = ___ squares

2.5% orange =

7% purple = ___ squares

9% dark green =

What percentage of squares remains? _____ squares = _____%
