

Editing and Improving Text

I arrived at a new Age. It was an island. It was called Edanna. It was very pretty. There were lots of weird plants. The plants were green and pink. They were weird shapes and patterns.

I went to a spiral plant. It took me up to the top of the island. I heard a bird. I saw the bird. It had a baby. It was cute. It had blue feathers. It had an orange chest. It was noisy.

I looked around the island. The passages were dark. They had roots on the floor. There were plants on the walls and on the ceiling.

I saw an Electra Ray. It travelled through the plant. It was bright. It was colourful.

I didn't like it here. It was strange. I wanted to go home. I couldn't find my way out.
