“I have been teaching for 18 years in the primary sector
and I look for good quality, engaging resources that are
useful for the children and aid their learning journey –
this is what you get from Teaching Packs every time.”

Dawn, Primary Teacher, UK

Finding Key Facts

Read the text below and record the key facts in the space at the bottom of the page.

Sunflowers are tall plants with big, bright yellow petals. They have a large, round centre filled with seeds.

Sunflowers are famous for turning their faces towards the sun throughout the day. Bees and other insects love to visit sunflowers to collect their nectar and pollen, which helps the sunflowers make more seeds. These seeds can be roasted and eaten as a tasty snack.

Finding Key Facts

Read the text below and record the key facts in the space at the bottom of the page.

Kenya is a country in Africa, famous for its wildlife. You can see lions, elephants, and giraffes roaming freely in national parks like the Maasai Mara. The capital city is Nairobi, a busy and modern place. Many people in Kenya speak Swahili, and some tribes, like the Maasai, have their own unique cultures and traditions. Kenya is also known for its delicious coffee and tea.
