

# Area

The area of this rectangle is  
**18cm x 10cm = 180cm<sup>2</sup>**

The area is  
the amount of space inside a shape.

To calculate the area of  
a square or rectangle,  
multiply the **length** by the **height**.

Your answer must be a square measure. It might be mm<sup>2</sup> or cm<sup>2</sup> or m<sup>2</sup>.
