4) As the _____ grows taller, add a _____ to support its _____.

How to Grow a Sunflower

Answers

1) Start by planting a seed in a small pot filled with moist soil. Place the pot somewhere warm and bright so the seed can germinate.

2) Once the seedling has grown a few leaves, move it to a larger pot or plant it outside in a sunny spot with plenty of space.

3) Water it regularly, especially during dry weather, and make sure the soil never completely dries out.

4) As the sunflower grows taller, add a stake to support its stem.
