

MODE

The mode is the most common number.

This table shows my high scores from five games that I have been playing.

Game 1	Game 2	Game 3	Game 4	Game 5	Game 6
150	200	225	200	175	280

If we put these numbers in order, we get 150, 175, 200, 200, 225, 280.

200 appears most often in the list, so the mode is 200.
